General Wash Powders

Oxyjon

Oxygen release powder for effective stain removal

Product code	801
Appearance	white free flowing powder
Reaction	oxidising agent

- ✓ Soluble powder for highly effective effective stain removal.
- ✓ Effective at all temperatures!
- ✓ Kinder to dyestuffs & fabric than chlorine based bleaches.
- ✓ Can be used to recover unfit, stained or mildew effected linen.

How to use

Oxyjon should be added at the highest temperature stage of the wash cycle, 40°C for shirts & fast colours or up to 90°C for white cotton.

Select the temperature according to fabric care labels.

Stain removal occurs at all temperatures. It is accelerated as temperature rises to a maximum 90°C.

High alkalinity and pH levels will also accelerate the stain removal reaction.

Recommended usage rates dependant upon soil/stain level: 50g- 450g per 45kgs dry weight load

Please see separate safety data sheet
