

PRODUCT INFORMATION

HIGH FOAM CARPET SHAMPOO

High foam carpet shampoo is a blend of surfactants water soluble solvents and chelates designed to be used as a manual carpet cleaner

APPLICATION

High foam carpet shampoo may be diluted to 60:1 with water for regular cleaning using a manual carpet cleaner or medium/soft brush then leave to dry and vacuum to remove residues. For spotting of small area prior to cleaning dilute 10:1 in a hand sprayer, spray onto soiled area, gently scrub using a medium hard brush, then vacuum up when dry.
