RE: Echo Magic ADW
Category Code:A1
NSF Registration No.159279

Dear Ms. Sali K.T.:

NSF has processed the application for Registration of **Echo Magic ADW** to the *NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds* (2017), which are available upon request by contacting NonFood@nsf.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable for use as a general cleaner (A1) on all surfaces in and around food processing areas, where its use is not intended for direct food contact. Use of this product in food processing or handling facilities requires that all food products and packaging materials be removed or protected prior to product use. A potable water rinse of cleaned surfaces is required after use of this product. When used according to manufacturer's instructions, the cleaner shall neither exhibit a noticeable odor nor leave a visible residue.

NSF Registration of this product is current when the NSF Registration Mark and Category Code appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (www.nsfwhitebook.org).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at www.nsfwhitebook.org. Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing. Please contact your NSF Project Manager or nonfood@nsf.org if you have any questions or concerns pertaining to this letter.

Sincerely,

Carolyn Gilliland
NSF NonFood Compound Registration Program
Company No: C0494213

Echo

MAGIC ADW

Automatic dish wash liquid

PRODUCT

ECHO MAGIC ADW is a concentrated low foam formulation which contains active alkali for effective saponification of fats and food debris. This product also contains a sequestrant, which is having sufficient sequestering power and provides high level efficient cleaning at minimal detergent concentration.

FEATURES AND BENEFITS

- High efficiency and excellent cleaning at minimal detergent concentration
- Very effective in removing saponifiable fats and food debris
- Cleans and deodorizes in one step
- Effective on various soiled conditions
- Leaves no film or residue on surface

PRODUCT DETAILS

Description	Specification
Appearance	Light yellow Liquid
Nature	Alkaline
Toxicity	Nil
pH	14.0
Detergency	Excellent
Foaming	Low

APPLICATION

ECHO-MAGIC ADW is a well balanced formulation for automatic dish wash.

DIRECTIONS FOR USE AND DOSAGE

Soft water : 2 ml/ltr
 Medium hard water : 2 - 3 ml/ltr
 Hard water : 3 - 4 ml/ltr

For sparkling results ensure the automatic dosing unit is correctly set for the water condition. Empty the dishwasher and fill with fresh water after every session.

INSTRUCTIONS

To ensure the best results, the machines should be regularly serviced and operated in accordance with the manufacture's instructions and recommendations. The washing process will be maximized if utensils can be washed as soon as possible after becoming soiled and the correct detergent concentrate for the level of water hardness is employed.
