RE: Echo Magic RA
Category Code:A1
NSF Registration No.159280

Dear Ms. Sali K.T.:

NSF has processed the application for Registration of **Echo Magic RA** to the *NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds* (2017), which are available upon request by contacting NonFood@nsf.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable for use as a general cleaner (A1) on all surfaces in and around food processing areas, where its use is not intended for direct food contact. Use of this product in food processing or handling facilities requires that all food products and packaging materials be removed or protected prior to product use. A potable water rinse of cleaned surfaces is required after use of this product. When used according to manufacturer's instructions, the cleaner shall neither exhibit a noticeable odor nor leave a visible residue.

NSF Registration of this product is current when the NSF Registration Mark and Category Code appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (www.nsfwhitebook.org).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at www.nsfwhitebook.org. Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing. Please contact your NSF Project Manager or nonfood@nsf.org if you have any questions or concerns pertaining to this letter.

Sincerely,

Carolyn Gilliland
NSF NonFood Compound Registration Program
Company No: C0494213

Echo

MAGIC RA

Rinse Aid

M9001

PRODUCT

ECHO MAGIC RA contains powerful wetting agents that lower the surface tension on dishes during the rinse cycle and allows the water to drain quickly and completely. This concentrated rinse additive eliminates spotting and soap scum accumulations on dishes in all types of dish washing operations. This product is designed for use in automatic rinse injectors on dish washing equipments and it allows water to quickly run off dish and glass surfaces, even in hard water.

FEATURES AND BENEFITS

- Designed for all automatic washers
- Prevents adhesion of mineral deposits
- Prevents spotting
- Assists in drying
- Leaves no residues
- Prevents calcium deposits
- For naturally shiny dishes without spots

PRODUCT DETAILS

Description	Specification
Appearance	Liquid
Colour	Blue
Nature	Acidic
Toxicity	Nil
pH	2.0 - 3.0
Detergency	Mild
Foaming	Low

APPLICATION

ECHO-MAGIC RA as a rinse aid in automatic dish washers.
