

PRODUCT INFORMATION

COLE & WILSON
CHEMICALS FOR THE CLEANING INDUSTRY

ENZYME DRAIN CLEANER

Enzyme drain cleaner is a combination of enzymes designed to rapidly digest and liquefy fats, oils, greases, protein, starches and cellulose that eventually block drains and grease traps.

APPLICATION

Manual drain treatment pour the recommended dosage in main drain line each night
For a 2" drain use 100ml, for every 2" increase in diameter increase the dose by 100ml.

Manual grease trap treatment pour about 3 litres into grease trap once a week
