APPLICATION

BIOLAB THIXOTROPIC is suitable for the use on ovens, grills, griddles, fryers, smoke houses and other food preparation surfaces where heavy grease and carbon are problem.

DOSAGE

Spray concentrated cleaner to warm surface. Allow the cleaner to work for 5 minutes. Brush off loosen deposits and wipe clean with damp sponge. Rinse thoroughly with fresh water.

INSTRUCTIONS

For ovens and grill surface: Apply 6-8 ounces of concentrated cleaner to a cold or hot surface. Allow the cleaner to work for 2 - 5 minutes. Brush off loosen deposits and wipe clean with a damp sponge. Repeat the process for especially stubborn stains. Redress the cleaned surface with cooking oil or other similar treatments.

For ceramic tiles, stainless steel, formica or painted surfaces: Use two ounces of BIOLAB THIXOTROPIC per quart of hot water. Apply diluted solution with a sponge or clothe. Allow the solution to work for 3 - 5 minutes. Wipe off the solution and rinse with clean water.

Deep fryers: Remove excess grease with scraper or sponge. Fill the basin of fryer up to 4 inches with water.

Food establishments: Equipment and surfaces subjected to direct food contact must be thoroughly rinsed with potable water after cleaning with this product. Avoid contamination of food during use. Do not store in food processing areas.
